- VARIABLE SPEED ON BARREL

### High capacity MOBILE WASHING SYSTEMS

# WASHING, GRADING & PACKING SYSTEMS

*designed to suit the application*

**Complete turnkey systems designed installed & commissioned**

Barrel washer with sludge auger in base tank for automatic waste removal

**OPTION:** Barrel can be covered inside with soft pintle lining for gentle handling & improved cleaning.

1mtr long brush mounted in out feed of barrel

Barrel washer with 'W' bottom base tank and 200mm dump valves

Barrel washer with automatic sludge extraction for high volume washing

**STAINLESS STEEL CONSTRUCTION**

**SAMPLE WASHER**

**SPONGE ROLLER DRIER** - Standard machines are equipped with 14, 16 or 20 rollers with a range of widths from 600mm to 1800mm, special units are available. In operation the heavy sponge covered drying rollers are friction driven by zinc plated steel rollers which in turn are wiped by adjustable rubber squeegees, continuously drying & cleaning the rollers & diverting excess water into a sloping tray below the machine.

**OPEN CELL SPONGE OR DONUT RINGS**

Air jack system to lower roller bed making servicing & cleaning easy and safe for the operator.

**THIS MACHINE IS DESIGNED TO EFFICIENTLY REMOVE EXCESS SURFACE WATER FROM PRODUCE AFTER WASHING**
