

# PRODUCT DATA SHEET JASA 350B

*An intermittent vertical form, fill and seal machine specially designed for pre-sealed net-film combinations*

The JASA 350B is an intermittent vertical form-, fill- and seal machine especially designed for the packaging of pre-sealed net-foil combinations. The net-foil combinations can be sealed both centric as well as eccentric. The machine is made of stainless steel and plastic parts, which makes the machine very suitable for the foodindustry.

## Models

Scope of delivery	A JASA 350B with multiseal fingergrip
Control system	Siemens
Article number	PJ 365111

## Options

Film splice unit (tape and seal)	✓
Luminescence sensor film mark detection	✓
Manual switch machine control JASA	✓
Foot switch machine control JASA	✓
Modem, service at distance	✓

**Models** **A JASA 350 B with multiseal fingerrip**

**Performance**

Production capacity	40 packages per minute
Sound pressure level	70 dB(A)

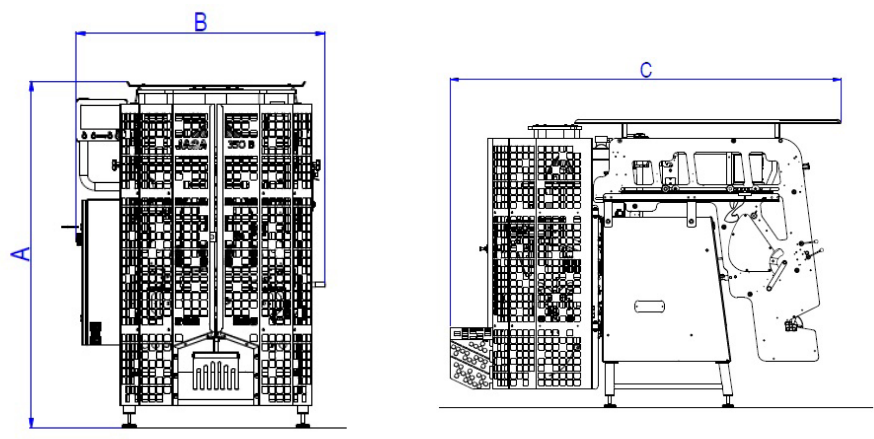

**Electric /Pneumatic details**

Elektric capacity	3KW , 3x400 VAC + N + PE, 50 HZ
Pneumatic capacity	Approx. 510 l/min
Necessary air pressure	6 BAR

**Transport information**

Size packaging	2400 x 1500 x 2050 mm
Pallet information	Pallet 2400 * 1500 mm
EG - Declaration of Conformity	yes
CE - marked	yes
Gross / Nett weight	750 kg / 710 kg
Country of Origin	The Netherlands
Customs Tariff Code (HS)	84223000

**Measurements**

Max. length [C]	2570 mm
Max. width [B]	1370 mm
Max. height [A]	1900 mm

**Bag shapes**

 <p>Pillowbag</p>	 <p>Vertisac</p>	 <p>Gusseted bag</p>
--	---	---

**Bag sizes**

Bag width	150 mm - 350 mm	150 mm - 350 mm
Bag length in one seal stap	480 mm	480 mm
